## TITLE

## One Guide (Make Trips with Us)

## ABSTRACT

Our aims to increase awareness of many tourist attractions, to encourage and support travel to One-Guide. Although associated with the My Tour National Tourist Office – India, My Tour remains an independent, non-profit, initiative to produce Web content and to offer assistance to India and Australian travellers interested in visiting OneGuide. About the My Tour National Tourist Office The My Tour National Tourist Office — is the official representative of the One Guide to satisfy the growing demand for trusted information and knowledge about tourism , Mitton's mission is to represent all the components of My Tour travel industry and to promote and facilitate increased inbound travel. MtNTO's activities include: Providing information to Indian travellers, press, tour operators and travel agencies regarding tourist attractions, travel conditions, events and tourist facilities within My Tour. Facilitating contacts and cooperation between North American and My Tour organizations and business companies involved in travel and tourism in My Tour Marketing activities aimed at increasing awareness of tourist attractions among media, consumers and business companies resulting in increased visitation to One Guide. We handle all types of travel; everything from airline tickets, Canadian & International tours, packaged vacations in Canada, the United States and abroad, cruises & hotel bookings. We're

also experts in travel to the island paradise of Cuba. We're also "specialists" in educational and youth organization tour travel. Our student travel services are second to none, which enables us to provide your student or youth organization group with excellent tours across India, Britain and Europe. Whether you're a seasoned traveller, or a first timer, our goal is to ensure your vacation exceeds your expectations. If you're looking for a Tour Package to an international destination, you should pay a visit our Tour Information page first. You'll find everything you need to know about Tour selection and buying.

## OUR VISION:

Tourism which is ethical, fair and a positive experience for both travellers and the people and places they visit.My Tour seeks to enhance the corporate management tools to improve the service while reducing your travel costs. We manage almost every type of travel needs, from simplest to the complex, and create an unparalleled experience that our customers could rely on. We aim to maintain our vision of high class travel services at reasonable prices through consistent leadership, controlled growth and excellent commitment. Keeping our vision, "value for money & client satisfaction" as a compass. The number of passengers serviced annually today, is more than ten times higher than that we serviced on annual basis when we first started up. Through continuous investments in contemporary travel related technology and quality assurance, My Tour Vision Travel has positioned itself today as one of the Top Ranked Travel and Tour Operating Companies in world, capable of meeting any Individual, Group, Organization or tour operator's requirement. There are presently few competitors offering services similar to ours. However considering the pace of change and current growth rate of the tourism industry luring many companies into the sector, this may be short-lived. Hence there will be a need to not only firmly establish ourselves on the market, but also strongly differentiate ourselves from these other businesses. My Tour Vision Travel is one of the few organizations that can offer all over the world a full spectrum of tourism services with flexible and efficient solutions, as a one stop supplier. The services we provide are of a high standard as
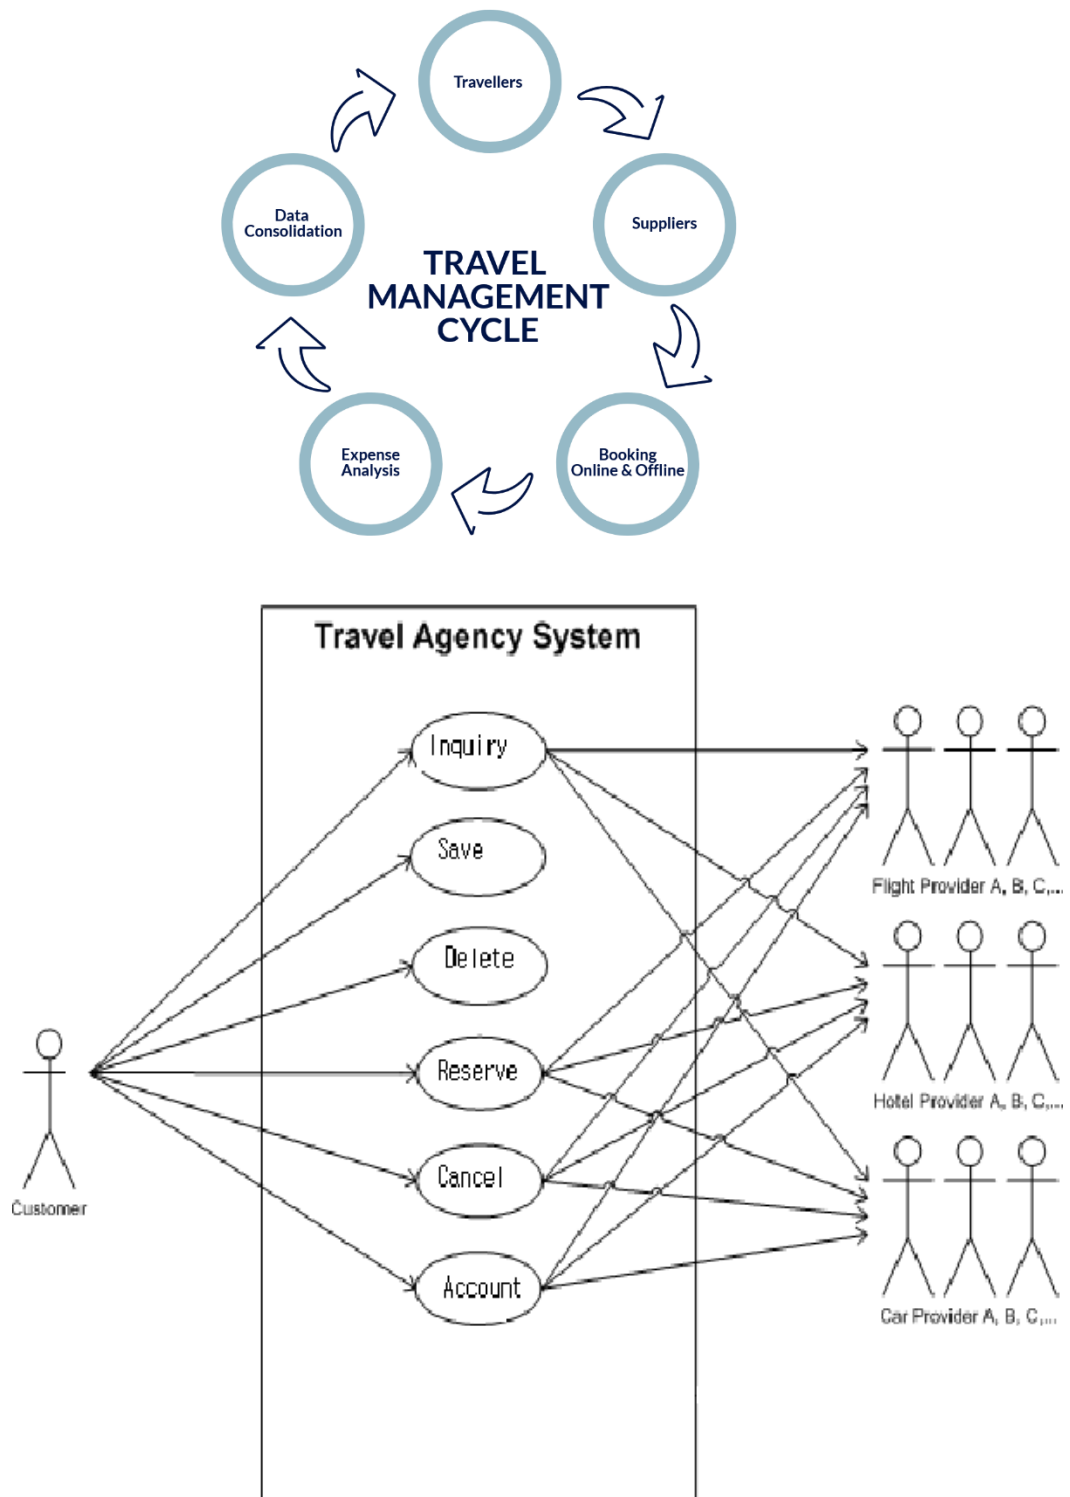

well as to save both time and money. We invite you to share our vision and benefit from our expertise, professionalism, flexibility, personalized approach, strong purchasing power and comprehensive product portfolio.

**PROBLEM DEFINITION**

The travel and tourism industry is a good example of the volatile industries. To begin with, this industry is not immune from political, social and economic shifts. Many of these factors are outside the control of travel companies and tourism boards. However, being aware of the factors can enable people Couldn't find the way to make best plans.

Globalization has created less distinctive locales. Due to global standardization, indistinguishable products are found in every country. If a person is traveling in order to learn or have an opportunity to explore the different and unique, then the lack of unique products becomes a tourism challenge. An example is that shopping malls all over the world tend to offer matching products. Many travellers also find hotels to be so standardized to the point that they almost forget the country in which the hotel is located. Localization is vital. Therefore, travel firms and tourism boards should know how to connect with foreign travellers. They should create multilingual websites and use translation services.

## RESULT DISCUSSION

### ✦ PROPER ENQUIRY AND CONTACT SYSTEM

Proper Enquiry and Contact system were must for this system. These both features go hand in hand as login was not possible without the registration and registration has no use if login feature was not done.

For registration to the website, a form was created using HTML, CSS, JavaScript and bootstrap framework. All the data from this form were inserted in the user table using the code as shown in the  Figure 4.18. This completed the Contuct process and the details of the registered was sent through the mail.

Enquiry form was also created using the same languages and code same as registration form. Enquiry in the system was done with the help of Validation that was sent to the user during the registration. The code that was used to complete the login has been completely shown in Figure 5.22.

### ✦ DIFFERENET PAGES OF THE WEBSITE

Different pages of this site were obtained with the help of coding done through HTML, CSS, bootstrap and PHP. All these pages were fully responsive and properly functioning.

### ✚ CONNECTING TO THE ADMINISTRATOR

Features of Portal To Admin Privilege in Figure 5.40 and contact page as shown in Figure 5.39 were obtained as the output to help the user communicate with the administrator of the website. and there would be a separate dashboard for the administrator through were they can chat with multiple user just at once.

## CONCLUSION

The research conducted here clearly suggested that One Guide is one of the most suitable for the Travellers of the younger generation. Provided users have proper Travelling Experience; this online site will become a new Travelling Mode technique and will help in eliminating the ancient or older form of Travel Management. The One Guide is of very simple to use because of its simple construction and using techniques.

The findings and result of this research suggest that a Travel site can help in both informative and Accessible way.  However, the relationship between these two things is not quite good because there are only few sites who provides these kinds of facilities for the Travellers. The result that was found clearly showed the Demographics of recent years in Travelling and to be the informative way.

As per the research conducted it can also be concluded that One Guide is one of the best ways of Travelling in many ways as suggested by different Travellers in their Insta Stories. The research also concludes that this form of Travelling would

eradicate the ancient form of Travelling completely if the proper implementation of these types of sites are done.

There can be many future works that can be conducted with this site. The first kind of thing that can be done with this site is implementation of Providing more Location Packages. The site can be expanded to many subjects and not limiting it to only Foreign Travels. As this site is controlled by only one person right now and less are associated with this site, Guides can be brought to this site and they can be given rights to add their content to the website.
